MEMBERSHIP VERIFICATION

Membership will be verified at the time your conference registration is received using the current MASN membership list. You must be a current member to qualify for the membership rate. If you are not a current member, your registration will be put on hold until additional money is received.

CONTINUING EDUCATION UNITS

This educational activity of up to 10.5 contact hours is provided by Nursing Development & Research of the University of Michigan-Flint Department of Nursing, which is approved as a provider of continuing education in nursing by the Michigan Nurses Association, which is accredited as an approver of continuing education in nursing by the American Nurses Credentialing Center's Commission on Accreditation.

Providing contact hours in no way indicates approval or endorsement of any commercial products by ANCC Commission on Accreditation or the UM-Flint.

OBJECTIVES

Conference Goal: To increase the knowledge of current issues affecting the all-encompassing role of school nursing practice.

Objectives:

At the completion of the program, the participant will be able to:

1. Define the scope of children's mental health
2. Understand how and why we do mental health evaluations
3. Identify appropriate mental health treatment resources for children
4. Discuss school physician participation and partnership
5. Understand the neurobiology of ADD
6. Understand the course and severity of ADD
7. Describe newer treatments for ADD
8. Identify how the brain learns
9. Identify three movements used in brain gym that enhance learning
10. Engage in physical movements that correlate with brain activity and enhance aerobic health
11. Explore the concept of resilience and strength-based practice for the caregiver
12. Examine our own resilience and how to foster that in others
13. Apply strategies that promote strength-based practice
14. Discuss the history of pain management
15. Understand the importance of measuring pain in children
16. Utilize appropriate assessment tools for the management of pain
17. Describe trends in teen pregnancy rates in Michigan
18. Recognize characteristics of effective teen pregnancy programs
19. Identify programs at the Michigan Department of Community Health that are addressing teen pregnancy
20. Describe the process for getting pregnancy prevention programs approved for use in schools
21. Recognize other sexuality education laws
22. Understand the purpose of clinical documentation
23. Understand and explain the SOAP method
24. Describe the clinical assessment process
25. Describe the mission of Shriners Hospitals for Children, including access
26. Discuss treatment options for children with special healthcare needs
27. Describe current treatment options for orthopedic and burn conditions
28. Identify a successful team based on an actual coordinated school health team model
29. Understand better the staff development and training opportunities related to coordinated school health
30. Identify resources in their own community that might help support a coordinated schools health program
31. Understand the importance of messaging in the legislative process
32. Describe 1 to 100 or 100 to 1 and how it works in advocacy
33. Recognize and explain MASN's Road Map of Advocacy
34. List the three CDC-recommended vaccines to be given at 11-12 years of age
35. List three signs and symptoms of meningitis
36. List the reasons why 11-12-year-olds are vaccinated against pertussis and why we vaccinate 11-12-year-old girls with HPV
